

COMMENTS ON BEHALF OF AIR 1:

1: Personally the ministry, and music, that AIR 1 provides keeps me relaxed and helps keep my temper down when I am driving on the streets with ALL the idiots driving around me.

2:If AIR 1 is displaced by an LPFM broadcaster then the majority of the people who rely on AIR 1 for decent & clean broadcasting will have to listen to the broadcasts of other radio stations filled with skits about penis's, premarital sex & homosexuality.

3:The service provided by AIR 1 is in the public interest because the programming of AIR 1 gives people faith; faith not only in the lord God almighty but faith in their fellow man. If people loose faith then they will loose heart, if they loose heart then they will loose hope and when people loose hope everyone suffers. Don't forget that this is a country "of the people, for the people & by the people"; NOT THE GOVERNMENT!!
